PROFESSIONAL PROFILE

Junior web and mobile developer with hands-on project experience building responsive websites and functional app prototypes. Currently completing a Web/Software Development programme at SofticuHUB, with practical experience in HTML, CSS, JavaScript, Bootstrap, React Native/Expo, basic Node.js, Git/GitHub and Netlify deployment. Brings an additional background in electrical contracting, troubleshooting, quotations and small-business operations, demonstrating practical problem-solving, ownership and project discipline. Open to junior, trainee and apprenticeship opportunities with legitimate employer-sponsored relocation.

TECHNICAL SKILLS

- HTML5 & semantic page structure
- JavaScript
- React Native / Expo (project experience)
- JSON & data handling
- Netlify deployment
- Debugging & iterative testing
- CSS3 & responsive layouts
- Bootstrap
- Basic Node.js
- Git / GitHub
- Responsive web design
- Browser APIs & DOM interaction

SELECTED PROJECTS

Pure Pulp Natural Fruit Drink Website

Responsive business/product website | Live on Netlify

- Built a responsive website using HTML, CSS and JavaScript, with attention to layout, usability and mobile responsiveness. purepulpnaturalfruitdrink.netlify.app

Quick Keke - Ride-Hailing Mobile App Prototype

React Native / Expo / JavaScript / Node.js | Mock-data prototype

- Built a functional prototype for a keke transport platform inspired by ride-hailing services, designed around connecting passengers with keke drivers.
- Developed and tested working user flows in Expo using mocked data while exploring mobile UI, navigation and backend concepts.

Personal Portfolio Website

HTML / CSS / JavaScript / Bootstrap

- Built a responsive personal portfolio website to present skills, projects and professional information; ready for deployment.

Netflix Clone

Front-end practice project

- Recreated a responsive streaming-platform interface to practise layout, styling, reusable UI patterns and JavaScript interactions.

MOUUA Website Clone

Front-end practice project

- Recreated a university-style website interface with responsive structure and styling using HTML, CSS and JavaScript.

Voice-to-Text Web Project

JavaScript practice project

- Built a browser-based voice-to-text feature as part of web-development training, applying JavaScript event handling and user-interface logic.

TRAINING & EDUCATION

Web / Software Development Programme - Certificate Expected | Sep 2025 - Dec 2026

SofticuHUB, Umuahia, Abia State, Nigeria

- Hands-on learning in HTML, CSS, JavaScript, Bootstrap, responsive development and practical project building.

WAEC / Senior Secondary Education | 2023
